Western Michigan Chapter

December 2024

WESTERN MICHIGAN

This months meeting info: Kalamazoo Meeting: Christmas Party:

Dates:

December 12th

Location:

No meeting this month

Location:

**Gun Lake Casino—Harvest Buffet
1123 129th Ave
Wayland, MI 49348**

Speaker:

**Charlie Watson
Dave Watson and
Associates**

Time:

**4:30 Social
5:30 Presentation & Dinner**

Subject:

Cross Connection Control

Cost:

\$30 per person

Important Information:

Party Time!

We hope to see you at this year's ASPE Christmas Party at Gun Lake Casino. For those of you who can come, please note our room is located near the Harvest Buffet on the Northern end of the Casino.

See you Thursday!

Christmas Party

GUN LAKE CASINO™

FIGHTING CORROSION & BACTERIA LIKE NO OTHER

Only Bradford White features exclusive Vitraglas® tank lining with Microban®:

- Vitraglas® provides unsurpassed protection from the corrosive effects of water.
- Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

**Vitraglas® and Microban® offer
product protection and peace of mind
around-the-clock.**

West Michigan is the proud home of Bradford White Water Heaters.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2023, Bradford White Corporation. All rights reserved. BAHBA0123

Chapter President—Brian Peceny

Happy Holidays!

For December we like to mix it up a little and switch our monthly lunch meetings in Grand Rapids and Kalamazoo to a single dinner meeting. This year we've selected to meet at the Gun Lake Casino. Its about as close to halfway between Kalamazoo and Grand Rapids that we could find so we are hoping to have a good mix of northerners and southerners at this meeting. Also looking for our members who have a hard time making our lunch meetings to enjoy this evening meeting.

We look at this meeting to be a combine standard lesson topic with CEU's as well as a celebration. We promise a casual and fun evening. We will also be visited by ASPE-WM's Santa who will have gifts for all (or some) of west Michigan's best engineers and reps.

So, please make the effort for a little extra travel time and join us on December 12.

IBC

SIMPLE

Mount > Connect > Plug In > Enjoy Endless Hot Water

- A total of 4 moving parts - Unparalleled in the industry (Fan, Bypass Valve, Gas Valve, and Damper)
- New illuminated touchscreen control display panel
- Built-in bypass valve to prevent temperature fluctuations
- Superior performance in hard water areas
- Contractor friendly, 2" venting up to 65 ft. with 2" vent adapter
- Extended pipe connections
- Universal internal parts
- Sleek wall mounted space-saving design

RELIABLE

- Proven patented single pass Labyrinth heat exchanger with fully integrated copper waterways
- No flow reduction in hard water conditions
- Innovative state of the art electronic control

EFFICIENT

- Fully condensing one-piece heat exchanger
- Wireless cascade of up to 8 units. Multiple cascade configurations available.
- DHW recirculation pump control eliminates the need for an external timer
- Qualifies for top-tier energy rebates. Check your local utility for rebate opportunities.
- Ultra low NOx / low greenhouse gases
- Up to 5.2 GPM continuous at a 70°F rise
- Advanced temperature control

Easy Maintenance

1. Bypass Valve
2. Exhaust Fitting
3. Burner Fan
4. Heat Exchanger
5. Rear Flue Duct
6. Gas Valve
7. Touch Pad Control
8. Condensate Trap
9. Air Intake
10. Cover
11. Inlet Gas Line
12. Outlet Gas Tube

*Optional and subject to local regulations only. Consult installation & Operation Manual for further information. <http://www.ibcboiler.com>

4 Moving Parts

Fan, Bypass Valve, Gas Valve, and Damper

The SFT Superflow™ contains cutting-edge, solid-state electronics to control its gas valve, fan, and ignition. By doing so, we've succeeded in reducing the number of moving parts, made service simple, and increased reliability.

Surface Water Issue Series

Part 3: Hydrogen Sulfide Gas & Sulfur — *Rotten Egg Smell*

Technical Definition

Hydrogen sulfide gas & sulfur in water technically refers to the presence of the colorless, foul-smelling gas hydrogen sulfide (H_2S) dissolved in water, forming a weak acidic solution often called “hydrosulfuric acid,” which is readily detectable by its characteristic “rotten egg” odor; this typically occurs when bacteria decompose organic matter in the absence of oxygen, and can be found in sources like deep wells, sewers, and certain natural gas deposits.

The Sulfur Cycle (source: Wikimedia)

- Appearance: Colorless gas
- Odor: Strong, unpleasant “rotten egg” smell
- Source: Bacterial decomposition of organic matter
- Solubility: Highly soluble in water
- Acidic nature: When dissolved in water, it forms a weak acid called hydrosulfuric acid

Note: Water must be tested on-site and sent in for analysis. It may be combined with iron & other contaminants that need removal. Contact Flier’s for testing and proper equipment recommendations.

Contact Flier’s today!

VP Technical—Nick Von Myhr

Hello Everyone,

I would like to give a shoutout to Jonny Pingry with Guardian for last month's excellent presentation on Regulations and standards for Emergency eyewash equipment. A very well-rounded presentation, with lots of great information. I would encourage everyone to save Jonny's contact information for any future emergency shower and eyewash questions.

For the month of December, the West Michigan ASPE team welcomes Charlie Watson with Watson Associates to discuss Cross Connection Control. Charlie comes to us with a lifetime of experience when dealing with cross contamination solutions. Properly protecting the public water service is a priority for all domestic system engineers. This month is our annual Christmas party, please join us in having a good time, enjoying some laughs, and learning more about an important topic.

I look forward to seeing you all at there!

ArmorTek® ACV will Protect your Water Infrastructure Against Corrosive & Aggressive Water.

ArmorTek extends operation life and reduces maintenance cost for your ACVs.

Why Select ArmorTek® ACVs

- **Safety and Reliability:** Corrosion can compromise the integrity of control valves leading to leaks, failures, reduced flow and potentially hazardous situations.
- **Risk Reduction:** Corrosion-related failures can result in unplanned downtime, production losses, and increased maintenance costs.
- **Cost Management:** Corrosion-related maintenance, repairs, and replacements are significant costs for our customers.
- **Proper Engineering:** Incorporating corrosion resistant design principles from the outset of a project can prevent or minimize corrosion-related issues.

Watts Water Technologies, Inc.

TAKE YOUR LEARNING TO THE NEXT LEVEL

Flexible training options to fit the needs of your team.

Whether you're onboarding new hires, training seasoned professionals, or need assistance with your steam system, Merlo Energy can help! Explore our free and paid training classes, covering topics from steam basics to specialized hands-on workshops, and choose one that suits your needs.

Hands-On Training

Learn about steam basics, trap operation, and best practice applications in our hands-on steam and hot water seminars.

Armstrong University

Access free online courses from Armstrong International on steam, condensate & more.

Live & On-Demand Webinars

Join our live or on-demand webinars to learn about steam, hot water, and more. Topics vary by session, check the schedule for details.

On-site Lunch & Learns

Let our trained experts create a custom curriculum tailored for your personnel, organization, and industry on site at your facility.

**Unlock your team's potential,
sign up for expert training today!**

VP Membership—John Cassady

We are currently at 93 members

in the West Michigan chapter. Please join me in welcoming April Burt to our chapter!

If you know anyone interested in joining our chapter, please have them reach out. All new members will receive a voucher for a free meeting, redeemable at checkout when registering for an event.

For those of you who have a membership expiring by the end of January, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all as well.

When you are renewing your membership, please be sure to select West Michigan as your “home chapter”. Any “at large” members may miss out on communication from the chapter.

You can also update your chapter affiliation by logging in to ASPE.org, following My Account > My Profile, and editing your information.

If you have a coworker interested in joining our chapter, please have them contact me with questions about membership.

ZÖELLER PUMP COMPANY

VP Legislative —Luciana Kayo

Lead exposure through drinking water is a serious health risk, particularly for children, as it can impair brain development and cognitive function. To accelerate the replacement of lead water pipes, the U.S. Environmental Protection Agency (EPA) has partnered with the City of Ferndale, Michigan, addressing critical public health and water safety concerns. This effort is part of the EPA's "Get the Lead Out" program, funded by the historic Bipartisan Infrastructure Law, which aims to replace lead pipes in approximately 200 communities across the U.S.

The Bipartisan Infrastructure Law designates \$15 billion specifically for lead pipe replacement nationwide, with a substantial portion allocated to Michigan. An additional \$11.7 billion supports broader water safety and lead replacement efforts through a revolving fund.

Underserved communities often lack the resources for lead pipe replacement projects. Through "Get the Lead Out," the EPA provides technical assistance to guide these areas in planning, securing funding, and accessing critical federal resources. This initiative reflects the EPA's commitment to prioritizing safe drinking water for all.

With Michigan's history of lead contamination concerns, the EPA partnership seeks to address persistent water quality issues, giving residents greater confidence in their water's safety. Michigan has led the way in lead risk management, enforcing strict lead and copper standards since 2018 and dedicating over \$5 billion to water infrastructure improvements.

The "Get the Lead Out" program focuses on identifying lead pipes, developing replacement plans, engaging with communities, and securing funding to establish a lead-free water system. Federal support plays a crucial role in advancing Michigan's clean water objectives.

The EPA estimates that about nine million lead service lines remain active across the U.S. To assist communities, it offers the WaterTA platform, a technical assistance hub. Updates to the Lead and Copper Rule now mandate expanded testing, stricter timelines for lead removal, and improved public communication on water quality.

Michigan's proactive measures align with the EPA's national goal of lead-free drinking water, as supported by the Bipartisan Infrastructure Law.

The "Get the Lead Out" program represents strategic federal-local collaboration, providing resources and guidance to replace lead service lines and enhance water safety.

Continued on page 12...

VP Legislative —Luciana Kayo (continued)

The Michigan partnership highlights how federal support can drive meaningful improvements in local water quality, fostering a healthier and safer future for all.

For more information on funding services for lead pipe replacement, visit: <https://www.epa.gov/ground-water-and-drinking-water/identifying-funding-sources-lead-service-line-replacement#LawsAndPolicies>

Western Michigan Chapter

Help promote your business and support your local ASPE chapter by advertising in the 2024/2025 Western Michigan ASPE Society Newsletter which reaches local plumbing and mechanical engineers as well as local wholesale members. Choose the advertising level that best suits your needs. This increase in publicity for your company will be an asset for all parties involved.

Business card: \$150

Manufacturer Ads:

1/8 Page \$260

1/4 Page \$475

Full Page \$880

Included with your fee:

(9) issues of the newsletter

(9) inserts of the Business Card Ad in the newsletter

ASPE will once again be allowing you to rotate your advertisement throughout the year! If you wish to change your ad during the 2024/2025 session, email the new ad to me, and it will be changed in the following newsletter.

Advertising space can be purchased on the West Michigan ASPE website:

[Click here to purchase advertising space in the 2024/2025 newsletter](#)

Please send a copy of your ads and/or business cards to Jonathan Burke:

Phone: (616) 217-1399 Email: jmburke@burkeagency.com

Thank you for supporting your local ASPE chapter.
