## Western Michigan Chapter

### February 2022

## WESTERN MICHIGAN

**This months Meeting info:** [Lunch Meeting Information:](#) [Dinner Meeting Information:](#)

**Date:**

**February 10th**

**Location:**

**Park Club of Kalamazoo  
219 W. South Street  
Kalamazoo , MI 49007**

**Location:**

**Stone Water Country Club  
7177 Kalamazoo Ave SE  
Caledonia, MI 49316**

**Speaker:**

**Samantha Hoch  
Regional Sales Director  
Haws**

**Time:**

**Noon to 1PM**

**Time:**

**5:30 PM followed by dinner**

**Subject:**

**Emergency Eyewash And  
Shower Equipment**

**Cost:**

**\$25 per person**

**Cost:**

**\$30 per person**

## Important Information!

The new West Michigan ASPE website is  
live!!!

Meeting registrations will be done on the  
website moving forward.

Click [HERE](#) to check out the new site.

# TAGGART-KNIGHT

Commercial Plumbing Manufacturers' Representative

Stainless steel pipe, fittings, Trench drains, Floor Drains, Cleanouts.

Behavioral Health, Manual and Sensor Faucets. Shower Systems. \*\*

Electric Tankless & Mini-Tank Water Heaters. \*\*

Stainless Steel Counter Sinks, Hand Sinks, Scullery Sinks.

AXION Emergency Equipment, Bottle Fillers, Drinking Fountains, Water Coolers

Traditional & Solid Surface Washfountains, Solid Surface Countertops and Lavatory Systems.

Bronze & Stainless Steel Solenoid Valves. \*\*

Polypropylene & PVDF Acid Waste & High Purity Piping Systems. Acid Neutralization Tanks. \*\*

Digital & Traditional Thermostatic Mixing Valve Systems. \*\*

Welded Heavy Gauge Steel & Stainless Steel Interceptors & Separators. PDI Certified.

Cast Iron Drains & Carriers. Pressure Actuated Automatic Control Valves (ACV).

\*\* Inventoried by Taggart-Knight

## **Chapter President—Tom Kingshott**

In the middle of our wonderful Michigan winter (2 degrees F this morning), what better way to stay warm than to attend an ASPE meeting with colleagues, friends, good food and possibly an adult beverage? Chuck has lined up another great speaker for this month. This is our first month using the Star Chapter system to sign up for the meetings; thank you for your patience working the bugs out of this system. Please feel free to contact us if you have a hard time using the system.

Our new web page is up and running also at <https://aspewestmichigan.com/index.php!>

For our upcoming ASPE year, we are looking for someone to fill the ASPE Young Professionals (AYP) position to 'help young plumbing engineers, design professionals, and practitioners establish contacts and further the mission of the Society'. If this wonderful opportunity to mentor and support our younger members is of interest to you, please let me know!

---

## **VP Technical — Chuck Shoudel**

I would like to thank Ray Kennedy with KSI for presenting on grease and oil separators last month.

This month we have Samantha Hoch, Regional Sales Director – East for Haws presenting on emergency showers and eyewashes. She will be covering a simplified Guide to ANSI/ISEA Z358.1 (.10 CEU). Become subject matter experts of your emergency eyewash & shower equipment including weekly & annual testing. This topic covers the ANSI/ISEA Z358.1 significant requirements, important 2014 revision highlights, & compliance best practices.

I would like to thank Gary Taggart with Taggart-Knight for setting up this month's meeting.

I look forward to seeing everyone again.

## VP Legislative —Bryan Peceny

Thank you to Mr. Kennedy with KSI, Kennedy Solutions Inc. for being our speaker for our first meeting of 2022. Mr. Kennedy spoke about grease and oil interceptors.

Grease, FOG. I know you love it. Fats, Oils, Grease that are generated from food processing or preparation. Why do we care? Because your city's wastewater plant won't be happy with you or your client if you don't eliminate these from entering the municipal sewer system. In Michigan, where we use the 2018 Michigan Plumbing Code you will need to refer to chapter 10, section 1003 for information on interceptors.

How to size a gravity interceptor? The IPC tells you to use the maximum flow rate in gallons per minute and multiply that by 30 minutes (retention). If you want to be sure, you should look at EPA or UPC sizing guidelines which look into each fixture that is discharging into the grease line. You'll need information on hours of operation and load factors. Not always easy to get this information.

You'll also find helpful information and sizing solutions from the various interceptor manufacturer.

What's it looks like, below is a picture of one of KSI's units: Below is a large outdoor unit. You'll find many municipalities will require, or at least prefer that all traps be located outside for ease of service and limit cleaning inside food prep areas.

## VP Legislative —Bryan Peceny (Continued)

How about inside or point of use interceptors. Certainly, popular, and maybe your best solution for a single sink or two and not a full kitchen. Here you will use a Hydromechanical grease interceptors. This use gravity separation aided by vented flow control. These can be located on the floor under the sink or recessed in the floor. These are typically sized based on the volume of the sink timed to discharge in 60 seconds (to calculate a gpm).

Please reach out to all our friendly manufacturer's reps for help in selecting the right interceptor for your application.

---

## VP Membership — John Cassady

We are currently at 73 members in our chapter. Please join me in welcoming our newest member, Paul Muller with Flier's Quality Water Systems. For those of you that have a membership expiring by the end of February, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all next week as well.

If you have a coworker that is interested in joining our chapter, please have them reach out to me for membership.

**FLIER'S**  
QUALITY WATER SYSTEMS

## CUSTOM DESIGNED AND ENGINEERED WATER PURIFICATION SYSTEMS

Flier's Quality Water Systems is here to help. We offer complete water filtration/purification system designs for engineers and architects. Flier's custom engineers purification systems specific to the required water quality needed for each project.

Commercial water purification systems can pose countless challenges without having the knowledge and experience of a water purification professional. As the above diagram shows, there can be a few or there can be many components needed to achieve the exact water quality required to achieve the exact water quality required. A member of our experienced engineering staff will supply a system design, equipment sizing, and equipment sourcing along with P&ID drawings for your particular project.

We custom design complete purification systems to fit the scope of any project. No matter the size or specification, we're here to meet the needs of plumbing engineers and architects. Let us help you.

**"When we do a job, we do it right. Any other way is inexcusable."**

# ARMSTRONG INTRODUCES THE RADA DIGITAL FAUCET

**A SUPERIOR LEVEL OF HANDWASHING SAFETY AND INFECTION CONTROL,  
FROM THE WORLD LEADER IN DIGITAL WATER TEMPERATURE TECHNOLOGY.**

Armstrong brings the unparalleled accuracy, stability and safety of The Brain® Digital Recirculation Valve to a point-of-use solution—engineered to mitigate the growth and spread of waterborne pathogens and minimize the risk of scalding injury.

Rada Digital Faucets are an essential component of Armada<sup>SM</sup>—a total, state-of-the-art hot water system engineered to deliver a superior level of user safety, infection control and compliance, from mechanical room to the point of use.

Please contact Merlo Energy at 1-800-968-1195

## **AYP Liaison — Luciana Kayo**

February is CPD review month!

For those who want to become certified in plumbing design but don't feel fully prepared for the exam in April, there is still time to study!

ASPE is offering online **CPD Review Classes** to help you study and be confident during the test.

The virtual review courses will be taught by Donald Taylor, CPD, GPD on February 5, 6, and 26<sup>th</sup> from 10 am to 3 pm CST. Courses are \$300 for members and \$500 for non-members and includes:

- A review of CPD Study Guide
- Q&A about the exam
- Key terms and definitions
- Review of the five domains (Gathering Information, Administration, Design, Specifications, and Construction Services)
- Practice test

Classes will be held via ASPE Education/Zoom and limited to 30 students.

For more information about this workshop and registration, please visit <https://education.aspe.org/CPDReviewClasses>.

If you are not able to attend the classes on those dates, don't worry! ASPE also offers on-demand **CPD Review Webinar Series** so you can watch at your convenience.

The four-part webinars are presented by David DeBord, CPD, FASPE, LEED AP BD+C, GPD, ARCSA-AP, CFPS and covers the same five domains as the live workshop. Registration cost is \$250 for members and \$500 for non-members and access to webinars do not expire, so you can review it as many times as you like.

For additional information and registration, please visit [https://education.aspe.org/products/cpd-review-webinar-series#tab-product\\_tab\\_overview](https://education.aspe.org/products/cpd-review-webinar-series#tab-product_tab_overview)

If you have any questions regarding the CPD review courses, contact [certification@aspe.org](mailto:certification@aspe.org).

Good luck on your exam!

# SAFETY OR HYDRATION – HAWS® IS THERE FOR YOU

Haws offers a wide variety of motion-activated hydration options for sanitary use in public places.

With an optional bubbler head deactivation feature, easily maneuver between functional and non-functional use at your convenience to meet building ADA compliance requirements.
