Western Michigan Chapter

February 2026

WESTERN MICHIGAN

This months meeting info:

Grand Rapids Meeting:

Kalamazoo Meeting:

Dates:

February 11th & 12th

Location:

**Canopy by Hilton - Grand Rapids Downtown
131 Ionia Avenue SW
Grand Rapids, MI 49503**

Location:

**Park Club of Kalamazoo
219 W. South Street
Kalamazoo , MI 49007**

Speaker:

**Jonathan Burke
Burke Agency**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Subject:

**Designing For The DOE
2026: Commercial Water
Heater Requirements**

Cost:

\$30 per person

Cost:

\$30 per person

Chapter President — Nick VonMyhr

February President's Message – ASPE West Michigan

As we move into February, I'd like to thank everyone who continues to support and engage with our ASPE West Michigan chapter. Your participation at meetings and events is what keeps our chapter strong, active, and relevant within our industry.

I'd like to extend my sincere thank you to the **representatives of TOTO** for presenting at our January meeting. Their presentation on **Effective Restroom Design** was primarily focused on **ADA standards**, with helpful guidance on key compliance considerations and common items to look out for when designing accessible, functional, and user-focused restroom spaces. We appreciate TOTO's continued support of ASPE and their willingness to share their expertise with our membership.

For our February meeting, we are excited to welcome **Jonathan Burke with Burke Agency** as our featured speaker. Jonathan will be presenting a comprehensive overview of the Department of Energy (**DOE**) **2026 Commercial Water Heater Requirements and Standards**. With significant regulatory changes approaching, this presentation will be especially valuable for engineers, designers, and industry professionals involved in commercial water heating system design and specification.

Presentation highlights include:

- Defining and understanding the DOE's 2026 commercial water heater updates
- Understanding the differences between **UEF** and **Minimum Thermal Efficiency**
- An overview of the **four types of venting** for water heaters
- How to design retrofit projects utilizing **Category I / atmospheric venting** for heavy-duty commercial gas water heater applications
- Guidance on **when to specify volume water heaters**

Chapter President — Nick VonMyhr (continued)

This session will provide practical, real-world insight into how upcoming DOE requirements may impact both new construction and retrofit projects. We encourage all members to attend and take advantage of this opportunity to stay informed and prepared.

I look forward to seeing you!

VP Technical — Tom Kingshott

This month we welcome our very own Jonathon Burke presenting on Designing for the DOE 2026: Commercial Water Heater Requirements.

In addition, we are starting to schedule for the 2026-2027 ASPE year- if there are any presentation ideas, please send them to me at tkingshott@weareprogressive.com.

ARMSTRONG 

 **Intellihot**

HYDRONIC SOLUTIONS THAT DELIVER HEDRICK ASSOCIATES HIGHLIGHTS ARMSTRONG & INTELLIHOT

At Hedrick Associates, we're proud to represent industry-leading manufacturers that are redefining performance, efficiency, and innovation in plumbing system design. In this issue, we're excited to spotlight two product lines that are making serious waves in commercial water system applications: Armstrong's Plumbing Booster Pump Skids and Intellihot's On-Demand Water Heaters.

The Smarter Way to Heat Water

Say goodbye to storage tanks. Intellihot's commercial tankless water heaters are revolutionizing how buildings deliver hot water – with reliability, redundancy, and rapid response. These systems are ideal for restaurants, hotels, multi-unit residential, healthcare, and more.

With capacities ranging from compact units to high-volume models like the iQ Series, Intellihot delivers scalable, energy-efficient water heating solutions that meet today's demanding plumbing codes and performance expectations.

- On-demand performance
- No storage tanks
- Space-saving design
- Smart diagnostics

- Fully customizable
- Integrated controls
- Compact footprint
- Easy install and service

Smarter Pressure Solutions

Armstrong's factory-assembled and tested plumbing booster pump skids provide unmatched reliability and efficiency for domestic water pressure applications in commercial and institutional buildings.

Whether you're supplying a multi-story office building, hospital, or school, Armstrong booster skids provide a seamless, turnkey solution that performs under pressure – literally.

Here to Support Your Next Project!

As your local manufacturer's rep, Hedrick Associates offers more than just top-tier equipment – we're your design resource and support partner from concept to commissioning. Whether you're specifying a domestic water system for new construction or upgrading aging infrastructure, we're here to help you find the right solutions.

Let's connect – reach out to your Hedrick Associates rep to schedule a product demo, request a spec review, or learn more about these innovative systems.

Delivering smart solutions in HVAC, plumbing, and critical systems across Michigan.

Engineered for safer, smarter hot water

THE BRAIN® delivers precise temperature control and intelligent safety for institutional plumbing systems

Protect your people and control your water with THE BRAIN®—precision temperature, built-in safety, and smart monitoring in one powerful solution.

Fast, flexible installation

Four configurations to fit your system layout and save time.

Built-in safety features

Reduce Legionella risk with thermal disinfection and real-time alerts.

Precision temperature control

Maintain stable, accurate water temperatures for safety and comfort.

Smart monitoring

Track system performance with programmable controls and diagnostics.

Upgrade your hot water system today! Discover how THE BRAIN can make your system safer.

VP Membership—John Cassady

Hello ASPE Members,

We are currently at 100 members in the West Michigan chapter.

For those of you who have a membership expiring by the end of March, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all as well.

When you are renewing your membership, please be sure to select West Michigan as your “home chapter”. Any “at large” members may miss out on communication from the chapter.

You can also update your chapter affiliation by logging in to ASPE.org, following My Account > My Profile, and editing your information.

If you have a coworker interested in joining our chapter, please have them contact me with questions about membership.

FIGHTING CORROSION & BACTERIA LIKE NO OTHER

Only Bradford White features exclusive Vitraglas® tank lining with Microban®:

- Vitraglas® provides unsurpassed protection from the corrosive effects of water.
- Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

**Vitraglas® and Microban® offer
product protection and peace of mind
around-the-clock.**

West Michigan is the proud home of Bradford White Water Heaters.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2023, Bradford White Corporation. All rights reserved. BAHBA0123

Is There Such a Thing as a Salt-free Water Softener (scale reducer)?

Think of not having to haul all that salt down to the basement or into the mechanical room, dumping it, or disposing of the bags. Never running out again, not having to worry about what it does to your septic system, or filling out annoying environmental discharge reports to the waste water treatment plant.

Water Heater Repair

There have been many modern inventions to come down the pipeline in an effort to replace the conventional Cation Sodium Water Softener, and so far, none have been successful at removing hardness down to the ZERO Grains Per Gallon (GPG) or Parts Per Million (PPM) requirements for keeping scale from forming, which can take a toll on things such as hot water heaters, boilers, washing machines, and dishwashers operating safely.

The only thing that's come close is feeding an AntiScalant chemical utilizing phosphonates, polyacrylates, and other organic polymers generally only used on large Reverse

Osmosis systems as it binds in sequesters the hardness, but it does fall out as hardness eventually and is Never used on potable water.

There was a craze a few years back with magnets (that didn't work). One of our service tech's showed up on a job in Marshall, Michigan. They had unplugged and bypassed the softener and installed a magnet. The boiler blew up after it scaled up.

We have tested many salt-free softeners and scale reducers, with various hardness test kits, and found that none of them exchange hardness ions and remove them.

Unfortunately we are here to report if you want good soft water, it will require salt and a conventional softener, meter operated on-demand controller, preferably a twin for maximum efficiency.

Flier's can advise you on the proper Water Softening system.

VP Legislative — Ryan Groves

ASPE is pleased to announce that applications are now open for the 2026 ASPE Alfred Steele Scholarship. Named in honor of Alfred Steele, a long-time ASPE member and pioneer in plumbing engineering education. This scholarship supports the next generation of engineers and designers pursuing careers in our industry. It reflects ASPE's ongoing commitment to advancing professional development and academic excellence.

The Alfred Steele Scholarship is available exclusively to ASPE members and their immediate family members who are enrolled, or plan to enroll in a full-time engineering program at an accredited college, university, or technical school. Applicants must maintain a minimum 3.0 GPA and be taking at least 12 credit hours to qualify. This program is designed to help dedicated students achieve their educational goals and prepare for successful careers in engineering.

Completed applications must be submitted online no later than April 30, 2026. The ASPE Scholarship Selection Committee will review all submissions and determine award recipients, with scholarship announcements scheduled for July 2026. Up to \$5,000 in scholarship funds may be awarded to qualified applicants. ASPE's Board of Directors reserves the right to make final determinations regarding scholarship awards.

Are you considering joining ASPE?

Well, you should! Because it's hugely beneficial.

1. Professional Development & Education

- **Technical resources:** Access to design guides, handbooks, and standards like the Plumbing Engineering Design Handbook Series, which are industry staples.
 - **Training & webinars:** Regular seminars, technical webinars, and certification courses to help you grow your skills (e.g., CPD – Certified in Plumbing Design).
 - **Continuing education credits:** Easily earn CEUs and PDHs to maintain professional licensure.
-

2. Networking & Mentorship

- **Local chapters:** ASPE has local chapters nationwide that host technical meetings, site tours, and social events—perfect for meeting experienced engineers, designers, and manufacturers.
 - **Mentorship:** Many chapters pair younger engineers with senior professionals who can guide you through design challenges and career development.
 - **Peer community:** You'll gain a professional network of engineers who share your challenges and can help with practical design advice.
-

3. Career Growth Opportunities

- **Recognition:** ASPE membership adds credibility to your résumé and signals commitment to professional excellence.
- **Job board & career center:** Exclusive access to plumbing and mechanical design positions.
- **Leadership opportunities:** Joining committees or serving as a chapter officer develops management and communication skills early in your career.

Western Michigan Chapter

Help promote your business and support your local ASPE chapter by advertising in the 2024/2025 Western Michigan ASPE Society Newsletter which reaches local plumbing and mechanical engineers as well as local wholesale members. Choose the advertising level that best suits your needs. This increase in publicity for your company will be an asset for all parties involved.

Business card: \$150

Manufacturer Ads:

1/8 Page \$260

1/4 Page \$475

Full Page \$880

Included with your fee:

(9) issues of the newsletter

(9) inserts of the Business Card Ad in the newsletter

ASPE will once again be allowing you to rotate your advertisement throughout the year! If you wish to change your ad during the 2025/2026 session, email the new ad to me, and it will be changed in the following newsletter.

Advertising space can be purchased on the West Michigan ASPE website:

[Click here to purchase advertising space in the 2025/2026 newsletter](#)

Please send a copy of your ads and/or business cards to Jonathan Burke:

Phone: (616) 217-1399 Email: jmburke@burkeagency.com

Thank you for supporting your local ASPE chapter.
