Western Michigan Chapter

December 2025

WESTERN MICHIGAN

This months meeting info:

Grand Rapids Meeting:

Kalamazoo Meeting:

Dates:

December 9th & 10th

Location:

**Canopy by Hilton - Grand Rapids Downtown
131 Ionia Avenue SW
Grand Rapids, MI 49503**

Location:

**Park Club of Kalamazoo
219 W. South Street
Kalamazoo , MI 49007**

Speaker:

**Dustin Gardner
Sales Service Plus**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Subject:

Engineering Trends in Above Ground Valve Installation

Cost:

\$30 per person

Cost:

\$30 per person

Important Information:

Toys for Tots

We're thrilled to share that this year the West Michigan ASPE Chapter is supporting the Toys for Tots program for our annual Christmas party! We invite each of you to bring a new, unwrapped toy our local Christmas meetings to help bring a little joy to children in our community who might otherwise go without this holiday season.

The Best In Balancing

Now Backed By An Unmatched 10-Year Promise.

CircuitSolver thermostatic balancing valves automatically balance hot water recirculation systems. They ensure hot water availability and now come with an industry-leading **10-year warranty.**

Completely Tamper-Proof

Never worry about unnecessary adjustments by unqualified personnel, resulting in an unbalanced hot water system.

Configurations For All Applications

The Standard CircuitSolver® valve is available in six sizes from 1/2" to 2". All of our valves and assemblies are available with various end connections.

Chapter President — Nick VonMyhr

Thank you - I want to take a moment to highlight last month's outstanding presentation from our guest speaker, Josh Manion. Josh delivered an exceptional deep dive into the civil engineering work behind the new soccer stadium project in Grand Rapids. His presentation provided a fascinating look at what it takes to modify live city infrastructure in order to integrate a major new building into an existing urban environment. From coordinating with utilities to reshaping transportation systems, Josh gave us a behind-the-scenes appreciation for how complex and impressive these efforts truly are. Thank you again to Josh for sharing his expertise with our chapter.

Toys for Tots – Christmas Party Fundraiser

This month, our chapter is proud to support the Toys for Tots program. Thank you to everyone who has already considered participating and to those planning to bring a donation. Your generosity will help make the holidays brighter for children across West Michigan, and we truly appreciate every contribution, big or small. If you're able, please consider bringing a new, unwrapped toy to our upcoming meeting. Together, we can make a meaningful impact on this season.

Warm Holiday Wishes

As we head into the holiday season, I want to wish each of you a safe, joyful, and restorative break. Whether you're spending time with family, traveling, or simply taking a moment to slow down, I hope the season brings you peace and happiness. Thank you for your continued support of our chapter throughout the year—we look forward to an exciting 2026 ahead.

VP Legislative — Ryan Groves

The American Society of Plumbing Engineers has announced the release of an updated edition of its flagship reference, Plumbing Engineering Design Handbook, Volume 1: Fundamentals of Plumbing Engineering, now available in a convenient eBook format.

Recognized as the industry's leading technical resource, ASPE's Plumbing Engineering Design Handbook (PEDH) spans more than 50 chapters across four volumes and serves as a comprehensive guide to accepted practices and design criteria in the plumbing engineering field. Volume 1 focuses on the foundational principles essential for practicing engineers and designers, including formulas, standards, specifications, and best practices used throughout the industry.

The updated Volume 1 also includes expanded guidance on key topics such as corrosion prevention, accessibility design, acoustical control, and value engineering providing readers with current practical information to support both project success and professional development.

Check out ASPE.org for more information!

VP Technical — Tom Kingshott

This month we are please to welcome Dustin Gardner from Sales Service Plus to present on Best Practices in Backflow Prevention & Protection for our Christmas lunch meeting.

I have also heard that there may be a jolly person there with some holiday cheer!!

ARMSTRONG 

 **Intellihot**

HYDRONIC SOLUTIONS THAT DELIVER HEDRICK ASSOCIATES HIGHLIGHTS ARMSTRONG & INTELLIHOT

At Hedrick Associates, we're proud to represent industry-leading manufacturers that are redefining performance, efficiency, and innovation in plumbing system design. In this issue, we're excited to spotlight two product lines that are making serious waves in commercial water system applications: Armstrong's Plumbing Booster Pump Skids and Intellihot's On-Demand Water Heaters.

The Smarter Way to Heat Water

Say goodbye to storage tanks. Intellihot's commercial tankless water heaters are revolutionizing how buildings deliver hot water – with reliability, redundancy, and rapid response. These systems are ideal for restaurants, hotels, multi-unit residential, healthcare, and more.

With capacities ranging from compact units to high-volume models like the iQ Series, Intellihot delivers scalable, energy-efficient water heating solutions that meet today's demanding plumbing codes and performance expectations.

- On-demand performance
- No storage tanks
- Space-saving design
- Smart diagnostics

- Fully customizable
- Integrated controls
- Compact footprint
- Easy install and service

Smarter Pressure Solutions

Armstrong's factory-assembled and tested plumbing booster pump skids provide unmatched reliability and efficiency for domestic water pressure applications in commercial and institutional buildings.

Whether you're supplying a multi-story office building, hospital, or school, Armstrong booster skids provide a seamless, turnkey solution that performs under pressure – literally.

Here to Support Your Next Project!

As your local manufacturer's rep, Hedrick Associates offers more than just top-tier equipment – we're your design resource and support partner from concept to commissioning. Whether you're specifying a domestic water system for new construction or upgrading aging infrastructure, we're here to help you find the right solutions.

Let's connect – reach out to your Hedrick Associates rep to schedule a product demo, request a spec review, or learn more about these innovative systems.

Delivering smart solutions in HVAC, plumbing, and critical systems across Michigan.

Engineered for safer, smarter hot water

THE BRAIN® delivers precise temperature control and intelligent safety for institutional plumbing systems

Protect your people and control your water with THE BRAIN®—precision temperature, built-in safety, and smart monitoring in one powerful solution.

Fast, flexible installation

Four configurations to fit your system layout and save time.

Built-in safety features

Reduce Legionella risk with thermal disinfection and real-time alerts.

Precision temperature control

Maintain stable, accurate water temperatures for safety and comfort.

Smart monitoring

Track system performance with programmable controls and diagnostics.

Upgrade your hot water system today! Discover how THE BRAIN can make your system safer.

VP Membership—John Cassady

Hello ASPE Members,

We are currently at 102 members in the West Michigan chapter.

For those of you who have a membership expiring by the end of January, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all as well.

Many of you have memberships that expire or renew at the end of the year, please make sure your membership is up to date so you do not miss anything.

When you are renewing your membership, please be sure to select West Michigan as your “home chapter”. Any “at large” members may miss out on communication from the chapter.

You can also update your chapter affiliation by logging in to ASPE.org, following My Account > My Profile, and editing your information.

If you have a coworker interested in joining our chapter, please have them contact me with questions about membership.

FIGHTING CORROSION & BACTERIA LIKE NO OTHER

Only Bradford White features exclusive Vitraglas® tank lining with Microban®:

- Vitraglas® provides unsurpassed protection from the corrosive effects of water.
- Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

**Vitraglas® and Microban® offer
product protection and peace of mind
around-the-clock.**

West Michigan is the proud home of Bradford White Water Heaters.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2023, Bradford White Corporation. All rights reserved. BAHBA0123

Is Your Well Water Safe to Drink?

Pictured: Standard Well Digging Rig

NOTE: basic tests for Nitrates and Coliform Bacteria & E Coli are the only required parameters to be tested for a Real estate transaction.

No tests are run for any other type of Bacteria, Arsenic, PFAS, VOC's, Iron, Manganese, Hardness PH or Lead.

There was a time when the water industry had a bad reputation, due to poorly trained high pressure full-commission salespeople, who would scare people about what was in their water, with little knowledge of water treatment or its contaminants.

Here we are in 2025 with extensive knowledge and testing capabilities of the many harmful chemicals and contaminants that can be present in potable water.

Flier's is of the opinion that every home or office relying on well water, should have a Reverse Osmosis system that feeds a point of use drinking water faucet, at the sink, and feeds the ice maker and or beverage dispenser on the refrigerator.

Undersink Reverse Osmosis Unit

Reverse Osmosis systems utilize two different carbon filters to reduce or remove PFOS along with a thin film composite membrane removing up to 95% of all total dissolved solids, heavy metals, and other contaminants including Arsenic, PFAS, and Bacteria.

If you live in rural farm country, Reverse Osmosis removes Nitrates which can cause crib death (blue baby syndrome).

It's that simple, in the day and age in which we live, with the information we have at our disposal, and our understanding of contaminants in well water... ***why not protect the source where you get 98% of your drinking water from?***

Flier's can advise you on the proper system.

Filter SKUs: FLP4, FL6, FL10 and FSR5

Three high capacity filter options mean fewer replacements and reduced maintenance.

- ✓ FL10: Ultra Capacity 10,000 GAL
- ✓ FL6: High Capacity 6,000 GAL
- ✓ FLP4: Total PFAS* + Lead 4,000 GAL
- ✓ FSR5: Optional Sediment Pre-filter

Total PFAS* (FLP4 only)

Lead

Microplastics

Asbestos

Chlorine Taste and Odor

Turbidity

Cysts

Particulates, Class 1

Are you considering joining ASPE?

Well, you should! Because it's hugely beneficial.

1. Professional Development & Education

- **Technical resources:** Access to design guides, handbooks, and standards like the Plumbing Engineering Design Handbook Series, which are industry staples.
 - **Training & webinars:** Regular seminars, technical webinars, and certification courses to help you grow your skills (e.g., CPD – Certified in Plumbing Design).
 - **Continuing education credits:** Easily earn CEUs and PDHs to maintain professional licensure.
-

2. Networking & Mentorship

- **Local chapters:** ASPE has local chapters nationwide that host technical meetings, site tours, and social events—perfect for meeting experienced engineers, designers, and manufacturers.
 - **Mentorship:** Many chapters pair younger engineers with senior professionals who can guide you through design challenges and career development.
 - **Peer community:** You'll gain a professional network of engineers who share your challenges and can help with practical design advice.
-

3. Career Growth Opportunities

- **Recognition:** ASPE membership adds credibility to your résumé and signals commitment to professional excellence.
- **Job board & career center:** Exclusive access to plumbing and mechanical design positions.
- **Leadership opportunities:** Joining committees or serving as a chapter officer develops management and communication skills early in your career.

Western Michigan Chapter

Help promote your business and support your local ASPE chapter by advertising in the 2024/2025 Western Michigan ASPE Society Newsletter which reaches local plumbing and mechanical engineers as well as local wholesale members. Choose the advertising level that best suits your needs. This increase in publicity for your company will be an asset for all parties involved.

Business card: \$150

Manufacturer Ads:

1/8 Page \$260

1/4 Page \$475

Full Page \$880

Included with your fee:

(9) issues of the newsletter

(9) inserts of the Business Card Ad in the newsletter

ASPE will once again be allowing you to rotate your advertisement throughout the year! If you wish to change your ad during the 2025/2026 session, email the new ad to me, and it will be changed in the following newsletter.

Advertising space can be purchased on the West Michigan ASPE website:

[Click here to purchase advertising space in the 2025/2026 newsletter](#)

Please send a copy of your ads and/or business cards to Jonathan Burke:

Phone: (616) 217-1399 Email: jmburke@burkeagency.com

Thank you for supporting your local ASPE chapter.
