Western Michigan Chapter

November 2024

WESTERN MICHIGAN

This months meeting info:

Grand Rapids Meeting:

Kalamazoo Meeting:

Dates:

November 20th & 21st

Location:

**Canopy by Hilton - Grand Rapids Downtown
131 Ionia Avenue SW
Grand Rapids, MI 49503**

Location:

**Park Club of Kalamazoo
219 W. South Street
Kalamazoo , MI 49007**

Speaker:

**Jonny Pingry
Guardian Equipment**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Subject:

Emergency Eyewash and Safety Showers

Cost:

\$30 per person

Cost:

\$30 per person

FIGHTING CORROSION & BACTERIA LIKE NO OTHER

Only Bradford White features exclusive Vitraglas® tank lining with Microban®:

- Vitraglas® provides unsurpassed protection from the corrosive effects of water.
- Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

**Vitraglas® and Microban® offer
product protection and peace of mind
around-the-clock.**

West Michigan is the proud home of Bradford White Water Heaters.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2023, Bradford White Corporation. All rights reserved. BAHBA0123

Chapter President—Brian Peceny

Welcome to the time of the year when its dark when you leave the office. ASPE just had their bi-annual Conference and Expo. It was held in a fellow region 2-chapter city of Columbus Ohio. The conference portion is held for the first two days over the weekend, and consists of national organization business and procedures, including voting on by-laws and new national chapter president. The national Chapter's new president is Bryan Hutton. My first impressions are that he will bring passion to the position.

The second part of the week was the expo. There were many national plumbing manufactures represented in the convention hall. The halls were open from Monday through Wednesday. Though we all got tired feet, I found the offerings excellent. Along with the Expo, there were also technical sessions available on Tuesday and Thursday.

So, maybe interesting in attending the next national event? That will be next year in Orlando Fl. It will be a Technical Symposium. There will be manufactures on site, but the focus will be on education. I attended one of these in Pittsburgh and found it very valuable. If you are looking for some plumbing focused education, I recommend you review next year's Tech Symposium... plus it will be warm.

Hope to see everyone at our next meeting, and don't forget our special December evening meeting at Gun Lake Casino.

IBC

SIMPLE

Mount > Connect > Plug In > Enjoy Endless Hot Water

- A total of 4 moving parts - Unparalleled in the industry (Fan, Bypass Valve, Gas Valve, and Damper)
- New illuminated touchscreen control display panel
- Built-in bypass valve to prevent temperature fluctuations
- Superior performance in hard water areas
- Contractor friendly, 2" venting up to 65 ft. with 2" vent adapter
- Extended pipe connections
- Universal internal parts
- Sleek wall mounted space-saving design

RELIABLE

- Proven patented single pass Labyrinth heat exchanger with fully integrated copper waterways
- No flow reduction in hard water conditions
- Innovative state of the art electronic control

EFFICIENT

- Fully condensing one-piece heat exchanger
- Wireless cascade of up to 8 units. Multiple cascade configurations available.
- DHW recirculation pump control eliminates the need for an external timer
- Qualifies for top-tier energy rebates. Check your local utility for rebate opportunities.
- Ultra low NOx / low greenhouse gases
- Up to 5.2 GPM continuous at a 70°F rise
- Advanced temperature control

Easy Maintenance

- | | |
|--------------------|----------------------|
| 1. Bypass Valve | 7. Touch Pad Control |
| 2. Exhaust Fitting | 8. Condensate Trap |
| 3. Burner Fan | 9. Air Intake |
| 4. Heat Exchanger | 10. Cover |

FLIER'S™
QUALITY WATER SYSTEMS

Surface Water Issue Series

Part 1: Iron

Surface Water Issues and shallow well problems are among the toughest water problems to treat! These waters can contain many elements including **rust-causing stains, clogging of pipes and fixtures, manganese, rotten egg smell** caused by hydrogen sulfide gas, and **decaying vegetation** that makes the water stink, taste metallic, or sometimes contains tannins that stain and cannot be removed or reduced by conventional means.

We will discuss each issue separately and offer solutions to the problems caused by each issue, which are most commonly found in wells & aquifers and are generally close to lakes, ponds, or rivers.

Image of iron staining.

Part 1: Iron

Iron can be present in city or well Water; **it can start to stain at .6 parts per million (very low)**. It gets increasingly difficult to treat when it's greater than 1 ppm and can run as high as 10 ppm!

Iron can be in two forms:

1. Ferrous (clear water)
2. Ferric

Generally in the Midwest, we have clear water iron (ferrous) which means it draws clear and doesn't precipitate out until it sits and is oxidized. This iron form is easier to treat. There can also be bacterial iron in well water that requires a heavy chlorine treatment!

Fliers can help with this by running a water analysis & developing a plan for the proper equipment.

Contact Flier's today!

VP Technical—Nick Von Myhr

Hello Everyone,

I would like to thank Tyler & Al Oatmen with Associated Heating Sales for the great Commercial Lift Station design presentations given in October. It was very clear that their team has been doing this for a long time, and I would encourage you to save their contact information for future lift station questions.

This month the ASPE group welcomes Jonny Pingry with Guardian Equipment to talk to us about standards and regulations for emergency eye wash equipment. The presentation is intended to leave attendees with a better understanding of the regulations and standards that have formed the emergency eyewash and safety shower industry. It will also illustrate the different types of equipment available for common commercial applications.

I hope to see you there!

Chicago Faucets 8450 Series

Eyewash and Lab Nozzle Faucet Combination Introduced to 8450 Series of Safety Fittings

This innovative product seamlessly integrates two essential laboratory fixtures into one versatile unit, available in both single and dual handle configurations.

These combination units are ideal for hospital, high school, university, and industrial laboratories. Any environment where potentially hazardous chemicals or materials are handled can benefit from this safety-enhancing fitting.

Key Features and Benefits

- **Space-Saving Design:** By combining two fittings into one, these units optimize valuable laboratory space.
- **Compliance:** The eyewash component meets OSHA standard 29 CFR 1910.151(c) and ANSI/ISEA Z358.1-2014 requirements for emergency eyewash facilities.
- **Quick Access:** The eyewash function is rapidly activated with a single action in emergencies, potentially reducing the severity of eye injuries.
- **Versatility:** The faucet component is available in single-lever or dual handle configurations to suit various laboratory setups and user preferences.
- **Durability:** Built with Chicago Faucets' renowned quality, these units are designed to withstand the rigors of laboratory environments.
- **Easy Maintenance:** The integrated design simplifies maintenance procedures, ensuring both the faucet and eyewash station remain in optimal working condition.

VP Membership—John Cassady

We are currently at 90 members in the West Michigan chapter. Please join me in welcoming Joe Forest, Connor Cleary, and Benjamin Wirick to our chapter!

If you know anyone interested in joining our chapter, please have them reach out. All new members will receive a voucher for a free meeting, redeemable at checkout when registering for an event.

For those of you who have a membership expiring by the end of December, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all as well.

When you are renewing your membership, please be sure to select West Michigan as your “home chapter”. Any “at large” members may miss out on communication from the chapter.

You can also update your chapter affiliation by logging in to ASPE.org, following My Account > My Profile, and editing your information.

If you have a coworker interested in joining our chapter, please have them

VP Legislative —Luciana Kayo

Did you know? The updated ASPE/ANSI 45-2018 standard for Siphonic Roof Drainage is now open for public review! The Working Group in charge of updating the standard has completed their review, and the updated version is available for feedback.

The ASPE 45 system design standard covers engineered siphonic roof drainage systems, ensuring they operate at full capacity through correct pipe sizing and specialized siphonic roof drains. It sets out minimum performance criteria, inspection and testing guidelines, and key design principles for these systems. It does not cover conventional roof drains, atmospheric drainage systems, or sanitary drainage, which are addressed by ANSI/ASTM A112.6.4.

Anyone impacted by or interested in these updates is encouraged to share their input by November 18, 2024.

To receive a copy of the standard and a comment form, please contact Gretchen Pienta, ASPE's Director of Communications, Marketing & Publications, at gpienta@aspe.org.

We hope to see you at the Christmas Party!

Western Michigan Chapter

Help promote your business and support your local ASPE chapter by advertising in the 2024/2025 Western Michigan ASPE Society Newsletter which reaches local plumbing and mechanical engineers as well as local wholesale members. Choose the advertising level that best suits your needs. This increase in publicity for your company will be an asset for all parties involved.

Business card: \$150

Manufacturer Ads:

1/8 Page \$260

1/4 Page \$475

Full Page \$880

Included with your fee:

(9) issues of the newsletter

(9) inserts of the Business Card Ad in the newsletter

ASPE will once again be allowing you to rotate your advertisement throughout the year! If you wish to change your ad during the 2024/2025 session, email the new ad to me, and it will be changed in the following newsletter.

Advertising space can be purchased on the West Michigan ASPE website:

[Click here to purchase advertising space in the 2024/2025 newsletter](#)

Please send a copy of your ads and/or business cards to Jonathan Burke:

Phone: (616) 217-1399 Email: jmburke@burkeagency.com

Thank you for supporting your local ASPE chapter.
