Western Michigan Chapter

November 2025

WESTERN MICHIGAN

This months meeting info:

Grand Rapids Meeting:

Kalamazoo Meeting:

Dates:

November 12th & 13th

Location:

**Canopy by Hilton - Grand Rapids Downtown
131 Ionia Avenue SW
Grand Rapids, MI 49503**

Location:

**Park Club of Kalamazoo
219 W. South Street
Kalamazoo , MI 49007**

Speaker:

**Josh Manion
Progressive Companies**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Time:

**11:30 Social
12:00 Presentation & Lunch**

Subject:

**Municipal & Civil
Engineering and Plumbing
Engineers**

Cost:

\$30 per person

Cost:

\$30 per person

 **CircuitSolver**[®]
A ThermOmegaTech[®] brand

The Best In Balancing

*Now Backed By
An Unmatched
10-Year Promise.*

CircuitSolver thermostatic balancing valves automatically balance hot water recirculation systems. They ensure hot water availability and now come with an industry-leading **10-year warranty.**

Completely Tamper-Proof

Never worry about unnecessary adjustments by unqualified personnel, resulting in an unbalanced hot water system.

Configurations For All Applications

The Standard CircuitSolver[®] valve is available in six sizes from 1/2" to 2". All of our valves and assemblies are available with various end connections.

ASSOCIATES, INC.

Chapter President — Nick VonMyhr

Thank you to John Hernandez for an excellent presentation on emergency eyewash and shower equipment. John covered a wide range of factors to consider when specifying safety equipment. The presentation was both informative and engaging.

Holiday News – As mentioned last month, we’re trying something new this year! To keep with our regular monthly rhythm, we will be hosting separate Christmas parties for both the Kalamazoo and Grand Rapids meeting locations. Each event will feature an upgraded menu, fun giveaways, and a relaxed holiday atmosphere.

Welcome – This month, we are pleased to welcome John Manion, Senior Civil Engineer at Progressive Companies. In the world of plumbing engineering, it’s difficult to even begin a project without knowing where the building’s utilities are located. Coordination between civil and plumbing engineers, especially regarding incoming potable water and outgoing storm and sanitary lines—is vital to a project’s success. I’m looking forward to the valuable perspective John will bring as we discuss these crucial touchpoints for successful projects.

We look forward to seeing you at the next meeting!

VP Technical — Tom Kingshott

We are excited to welcome Josh Manion, PE as our November speaker!

Josh is a senior civil engineer at Progressive Companies, and will be discussing Civil engineering design and the public utility relocation/process/permitting and discuss how we evaluated the “big flush” for a large event facility as well as demands that come from municipalities that can affect the civil and plumbing designs.

VP Legislative — Ryan Groves

If you're planning to earn your Certified in Plumbing Design (CPD) credential next year, the 2026 CPD exam will be held April 13–24, 2026, via remote proctoring. This flexible online format allows candidates to complete the exam from their preferred location while maintaining testing integrity and convenience.

To qualify for the CPD exam, candidates must either hold full ASPE membership or have prior approval to sit for the exam. Eligibility also requires a minimum of four years of experience in plumbing system design and a bachelor's degree in a related engineering field. In place of a degree, candidates may substitute additional design experience up to a total of eight years or receive partial credit for education in a plumbing-related curriculum. Those who already hold the CPDT certification can count it toward one year of experience.

All exam candidates must submit the CPD Eligibility Form by April 1, 2026, for approval to take the exam. Applicants will need an ASPE Education account to complete this process. Instructions for creating an account are available through ASPE. Don't miss this opportunity to advance your professional credentials and demonstrate your expertise in plumbing design!

ARMSTRONG 

 **Intellihot**

HYDRONIC SOLUTIONS THAT DELIVER HEDRICK ASSOCIATES HIGHLIGHTS ARMSTRONG & INTELLIHOT

At Hedrick Associates, we're proud to represent industry-leading manufacturers that are redefining performance, efficiency, and innovation in plumbing system design. In this issue, we're excited to spotlight two product lines that are making serious waves in commercial water system applications: Armstrong's Plumbing Booster Pump Skids and Intellihot's On-Demand Water Heaters.

The Smarter Way to Heat Water

Say goodbye to storage tanks. Intellihot's commercial tankless water heaters are revolutionizing how buildings deliver hot water – with reliability, redundancy, and rapid response. These systems are ideal for restaurants, hotels, multi-unit residential, healthcare, and more.

With capacities ranging from compact units to high-volume models like the iQ Series, Intellihot delivers scalable, energy-efficient water heating solutions that meet today's demanding plumbing codes and performance expectations.

- On-demand performance
- No storage tanks
- Space-saving design
- Smart diagnostics

- Fully customizable
- Integrated controls
- Compact footprint
- Easy install and service

Smarter Pressure Solutions

Armstrong's factory-assembled and tested plumbing booster pump skids provide unmatched reliability and efficiency for domestic water pressure applications in commercial and institutional buildings.

Whether you're supplying a multi-story office building, hospital, or school, Armstrong booster skids provide a seamless, turnkey solution that performs under pressure – literally.

Here to Support Your Next Project!

As your local manufacturer's rep, Hedrick Associates offers more than just top-tier equipment – we're your design resource and support partner from concept to commissioning. Whether you're specifying a domestic water system for new construction or upgrading aging infrastructure, we're here to help you find the right solutions.

Let's connect – reach out to your Hedrick Associates rep to schedule a product demo, request a spec review, or learn more about these innovative systems.

Delivering smart solutions in HVAC, plumbing, and critical systems across Michigan.

ArmorTek® ACV will Protect your Water Infrastructure Against Corrosive & Aggressive Water.

ArmorTek extends operation life and reduces maintenance cost for your ACVs.

Why Select ArmorTek® ACVs

- **Safety and Reliability:** Corrosion can compromise the integrity of control valves leading to leaks, failures, reduced flow and potentially hazardous situations.
- **Risk Reduction:** Corrosion-related failures can result in unplanned downtime, production losses, and increased maintenance costs.
- **Cost Management:** Corrosion-related maintenance, repairs, and replacements are significant costs for our customers.
- **Proper Engineering:** Incorporating corrosion resistant design principles from the outset of a project can prevent or minimize corrosion-related issues.

Engineered for safer, smarter hot water

THE BRAIN® delivers precise temperature control and intelligent safety for institutional plumbing systems

Protect your people and control your water with THE BRAIN®—precision temperature, built-in safety, and smart monitoring in one powerful solution.

Fast, flexible installation

Four configurations to fit your system layout and save time.

Built-in safety features

Reduce Legionella risk with thermal disinfection and real-time alerts.

Precision temperature control

Maintain stable, accurate water temperatures for safety and comfort.

Smart monitoring

Track system performance with programmable controls and diagnostics.

Upgrade your hot water system today! Discover how THE BRAIN can make your system safer.

VP Membership—John Cassady

Hello ASPE Members,

Welcome to a new season of ASPE! We are currently at 101 members in the West Michigan chapter. Thank you all for keeping up with your memberships to help us reach our goal of hitting triple digits!

For those of you who have a membership expiring by the end of December, you should have received an email reminder from the national society already. I will send out follow-up reminders to you all as well.

When you are renewing your membership, please be sure to select West Michigan as your “home chapter”. Any “at large” members may miss out on communication from the chapter.

You can also update your chapter affiliation by logging in to ASPE.org, following My Account > My Profile, and editing your information.

If you have a coworker interested in joining our chapter, please have them contact me with questions about membership.

FIGHTING CORROSION & BACTERIA LIKE NO OTHER

Only Bradford White features exclusive Vitraglas® tank lining with Microban®:

- Vitraglas® provides unsurpassed protection from the corrosive effects of water.
- Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

**Vitraglas® and Microban® offer
product protection and peace of mind
around-the-clock.**

West Michigan is the proud home of Bradford White Water Heaters.

Microban® antimicrobial product protection helps prevent the growth of bacteria, mold and mildew that may affect the product. The built-in antimicrobial properties do not protect users or others from disease-causing organisms. Microban® is a registered trademark of Microban Products Company. ©2023, Bradford White Corporation. All rights reserved. BAHBA0123

Are you considering joining ASPE?

Well, you should! Because it's hugely beneficial.

1. Professional Development & Education

- **Technical resources:** Access to design guides, handbooks, and standards like the Plumbing Engineering Design Handbook Series, which are industry staples.
 - **Training & webinars:** Regular seminars, technical webinars, and certification courses to help you grow your skills (e.g., CPD – Certified in Plumbing Design).
 - **Continuing education credits:** Easily earn CEUs and PDHs to maintain professional licensure.
-

2. Networking & Mentorship

- **Local chapters:** ASPE has local chapters nationwide that host technical meetings, site tours, and social events—perfect for meeting experienced engineers, designers, and manufacturers.
 - **Mentorship:** Many chapters pair younger engineers with senior professionals who can guide you through design challenges and career development.
 - **Peer community:** You'll gain a professional network of engineers who share your challenges and can help with practical design advice.
-

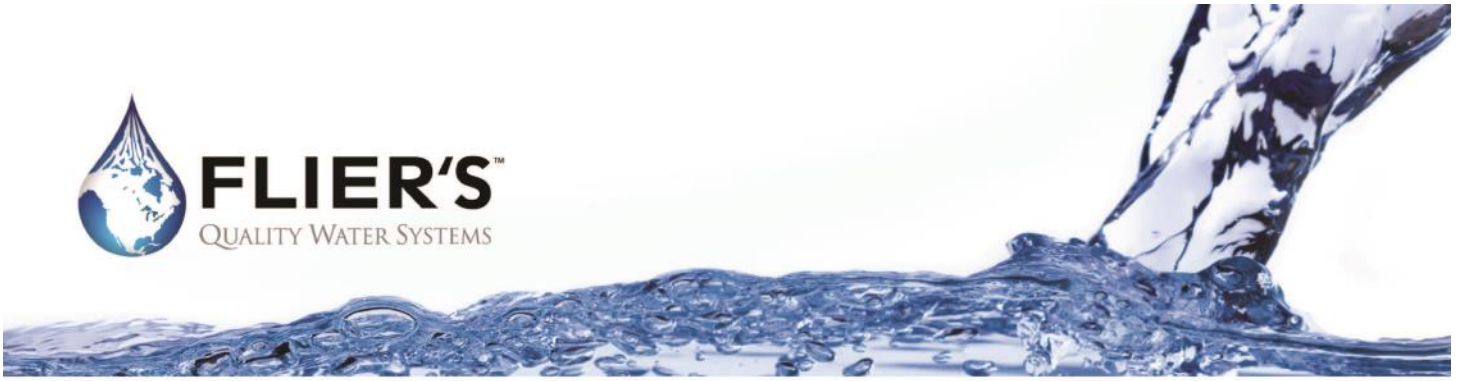

3. Career Growth Opportunities

- **Recognition:** ASPE membership adds credibility to your résumé and signals commitment to professional excellence.
- **Job board & career center:** Exclusive access to plumbing and mechanical design positions.
- **Leadership opportunities:** Joining committees or serving as a chapter officer develops management and communication skills early in your career.

FLIER'S™
QUALITY WATER SYSTEMS

Water Testing and Analysis: Reverse Osmosis.

One of the most crucial pieces of equipment to run a comprehensive water test before installing is a **Reverse Osmosis System**.

For this analysis we are going to run tests for the following:

Conductivity - Total Dissolved Solids is measured in Parts Per Million or Micromhos.

Silt Density Index (SDI) - an SDI greater than 5 needs a Multimedia Filter installed. This test is run on site for a 15-minute period of time through a paper filter to see if this filtration is necessary.

Hardness - a Reverse Osmosis System needs Soft Water feeding it in order to make the membranes last and to prevent scaling.

Iron - Iron needs to be controlled. Anything greater than one part per million should have a separate Iron Filter installed as pre-treatment.

Chlorine - Tested in parts per million, almost all city water will have some sort of Chlorine or Chloramines fed in the water. If so, it needs to be filtered with a Carbon Filter or chemically using Metabisulfite. Chlorine, if left in the water, will attack the Thin Film Composite RO Membranes and eat away at the media, eventually ruining the elements... a costly mistake!

Contact Flier's for Guidance on Testing and Sizing your RO Application Properly.

WOA Liaison —Luciana Kayo

This month, the Women of ASPE (WOA) invites you to join a new CEU webinar led by Certified Aging-in-Place Specialist Jackie Harmacy. The webinar “Transforming Aging in Place to Aging with Grace in the Kitchen and Bath” will be held on November 21 at noon CST. This two-hour session will examine the risks found in typical homes of older adults or those with mobility challenges and present practical solutions for improving safety and accessibility. The webinar will draw on the 7 Principles of Universal Design and ADA standards to show how thoughtful design can create comfortable, inclusive spaces for all generations—and how professionals knowledgeable in this field can benefit from the growing aging population market.

Participants will learn about:

- The importance of designing living spaces that support comfortable and graceful aging in-place.
- Core Universal Design principles for kitchens and bathrooms.
- When products must be ADA-compliant versus when they only need to meet ADA standards.
- Kitchen and bath products that blend safety, functionality, and aesthetic appeal for aging homeowners.

Registration is available through [ASPE Education](#).

The webinar is free for ASPE members and provides 0.2 CEUs.

If you're not yet a member, you can join ASPE to attend this webinar at no cost and gain access to additional member benefits by clicking [here](#).

Western Michigan Chapter

Help promote your business and support your local ASPE chapter by advertising in the 2024/2025 Western Michigan ASPE Society Newsletter which reaches local plumbing and mechanical engineers as well as local wholesale members. Choose the advertising level that best suits your needs. This increase in publicity for your company will be an asset for all parties involved.

Business card: \$150

Manufacturer Ads:

1/8 Page \$260

1/4 Page \$475

Full Page \$880

Included with your fee:

(9) issues of the newsletter

(9) inserts of the Business Card Ad in the newsletter

ASPE will once again be allowing you to rotate your advertisement throughout the year! If you wish to change your ad during the 2025/2026 session, email the new ad to me, and it will be changed in the following newsletter.

Advertising space can be purchased on the West Michigan ASPE website:

[Click here to purchase advertising space in the 2025/2026 newsletter](#)

Please send a copy of your ads and/or business cards to Jonathan Burke:

Phone: (616) 217-1399

Email: jmburke@burkeagency.com

Thank you for supporting your local ASPE chapter.
